

APPLICATION FORM FOR COMPLYING DEVELOPEMENT CERTIFICATION

Information for the Applicant

- This form may be used to apply for a complying development certificate to carry out development classed as "complying development". Complete this form and attach copies of all documents as being required to be provided. To minimise delay in receiving a decision about the application, please ensure that all relevant information and documents are provided.
- Once completed, this application form should be submitted to ACE Building Approvals for determination. PO Box 2030, Burwood North NSW 2134; E: info@aceapprovals.com.au
- It is recommended that applicants should obtain a planning certificate issued under S.149 Environmental Planning and Assessment Act 1979 from the local council and provide it to the certifying authority with this application. This may expedite the determination of the application.
- A single application for a CDC maybe made for development comprising the concurrent construction of new single storey or two storey dwelling houses if each is to be erected on existing adjoining lots.
However, depending upon factors such as the type of development, the location of the development and whether there will be external work or activities involved (eg. road opening, use of footpath areas) there may still be a need to obtain other approvals in order for the work involved to be performed. A list of the possible additional approvals that may be required can be obtained from the Department of Planning at www.planning.nsw.gov.au. In order to avoid potential delays in commencing any work, applicant should ascertain whether other approvals will be needed, and if so, the stage at which they will be required.

Applicant Details

** An application may only be made by a person who has the benefit of the development consent. An application may not be made by a builder who will carry out the building work or subdivision work unless that person owns the land on which the work is to be carried out.*
